### 1.Home Page

### 2. Admin Login Page

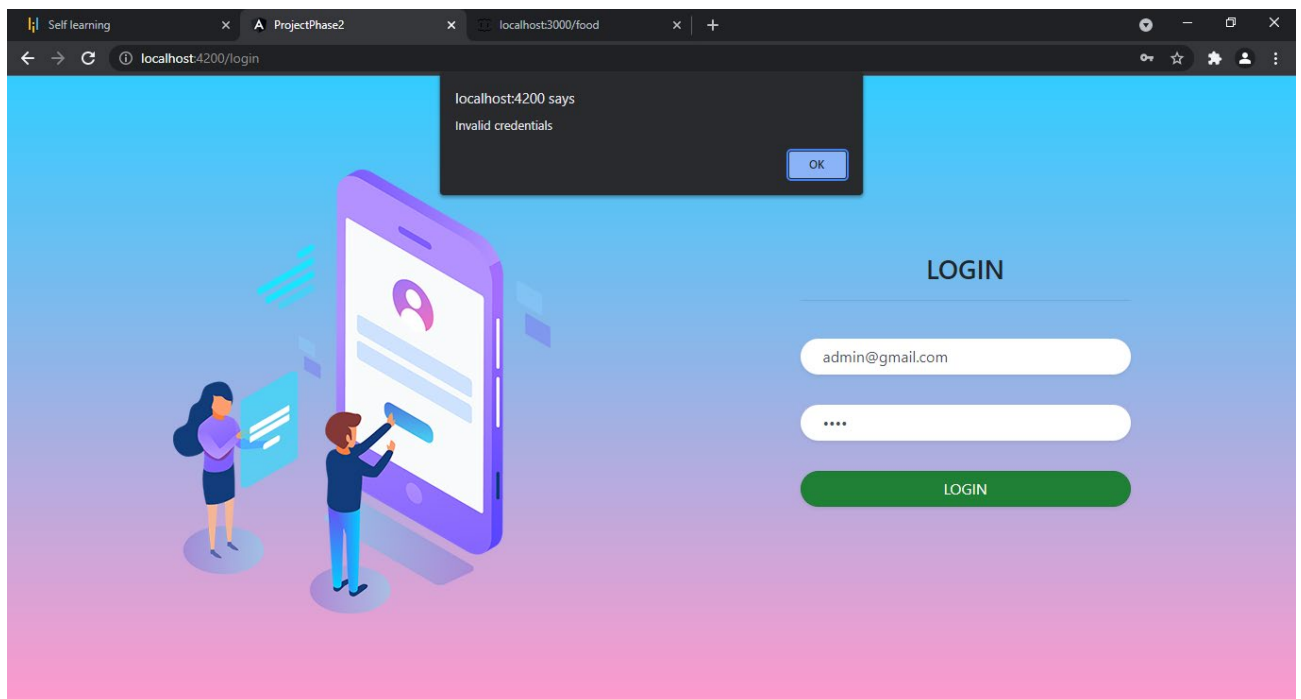

### 3. Reactive form- Validators for login page

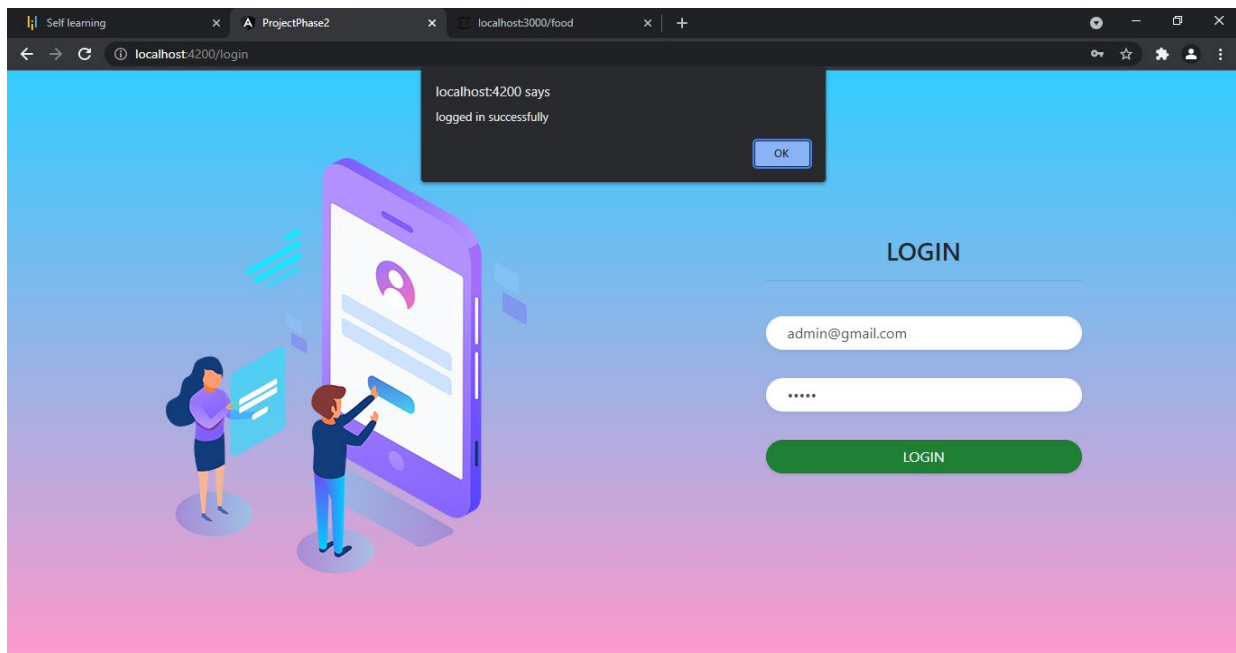

The screenshot shows a web browser window with the address bar displaying `localhost:4200/login`. The page features a large illustration of two people interacting with a giant smartphone on the left. On the right, there is a "LOGIN" form. The "Email Address" field contains a red 'x' and the text "Email Address Required" below it. The "Password" field also contains a red 'x' and the text "Password Required" below it. A green "LOGIN" button is positioned at the bottom of the form.

### Invalid Credentials

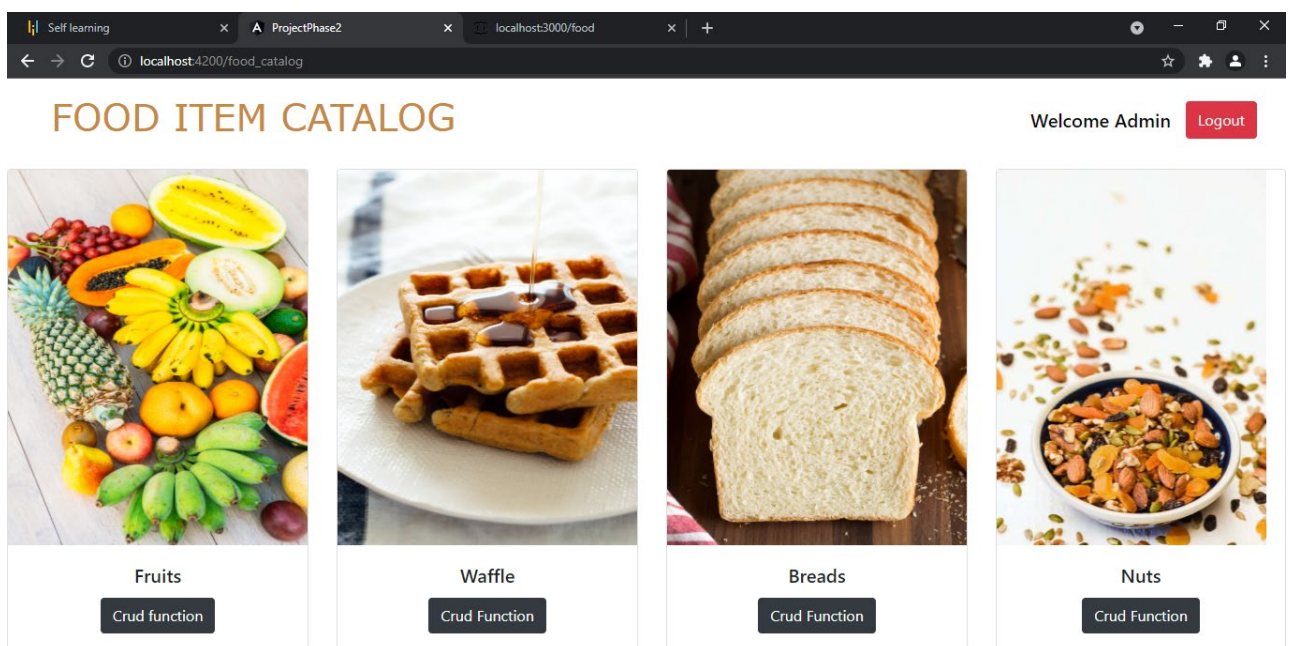

This screenshot shows the same login page as above, but with an error message displayed. A dark grey dialog box is overlaid on the left side of the page, containing the text "localhost:4200 says Invalid credentials" and an "OK" button. The login form on the right now has the email address "admin@gmail.com" entered in the "Email Address" field. The "Password" field is masked with four dots "....". The "LOGIN" button remains green.
